MORNING, VOL. XXXVIII, AUGUST 18, 1919.

AMERICAN FLYERS HELD FOR RANSOM FACE DEATH.

WILSON IS CERTAIN.

Sees Victory for League and Pact.

Has Strategy Planned and is Ready to Battle with Obstructionists.

Radical Programme Seems to Have Very Little Chance of Success.

BY ARTHUR SEARS HENNING.

WASHINGTON (D. C.) Aug. 17.—President Wilson is confident he can defeat his Senate's adversaries all along the line and win ratification of the peace treaty and the League of Nations covenant without a single amendment or reservation.

This confidence, it was learned tonight, follows the study he has made of the attitude of the various groups of Senators and of the weak points in the defenses of the greatly divided opposition. He has planned his strategy in detail and is ready for the battle which opens tomorrow.

The President has decided not to await presentation of the treaty to the Senate by the Foreign Relations Committee before unlimbering his batteries. He will begin his committee maneuvering as soon as that body gets down to consideration of amendments and reservations, following the examination of Mr. Wilson by the Senate at the White House on Tuesday.

Mr. Wilson will endeavor to defeat textual amendments in the committee and all reservations with teeth in them, attempting to confine the committee recommendations to mild interpretative reservations. To defeat amendments to meet the shunting settlement, and to equalize the votes of the United States and Great Britain in the League of Nations, the President will win over one Republican member of the committee. The lineup is now nine to eight, with Senator McCummins, Republican, voting with the Democrats. One more Republican defection would give the Democrats a majority of one.

HARDING IS HOPE. Senator Harding, Ohio, is the Republican upon whom all administration hopes are now centered. He has been the Republican in the motion to summon Col. House and the Democrats have hopes that he will weaken still further and vote against amendments and radical reservations.

There seems to be little chance of the radical programme of "overhaul" of the League of Nations succeeding, for only seven of the members of the committee are committed to this proposition.

To defeat the Lodge programme of reservations would be made difficult, but again the Democrats are counting on the aid of Senators McCummins and Harding to whittle the reservations down to the status of mild interpretative.

Even the mild reservationists, however, are advocating one amendment which would deprive the League of the power to determine what are domestic questions, and as such be exempt from its jurisdiction.

Whatever the outcome of the committee fight, the President will

Scene of Latest Mexican Outrage that May Cause Invasion.

Map shows Big Bend district along Mexican border of which Marfa is military headquarters. Headquarters of the border aerial patrol is at Fort Bliss, near El Paso. It was from this latter point that Lieut. Peterson and Davis left last Sunday for scout duty in the Big Bend region. Mistaking the Rio Grande they evidently sought a landing to get their bearings and were captured by Mexicans who are now holding them for \$15,000 ransom under penalty of death at dawn today if the blood money is not paid. Candalaria, Tex., is the point designated by the bandits for payment of the ransom. In the event of invasion by the American military forces the first point of entry will probably be made by the cavalry troops at Marfa, this being the closest point to where the aviators are supposed to be held. The Mexican National Railroad will doubtless be utilized by the infantry and artillery divisions leaving El Paso. Maj.-Gen. Dickman, commanding the Southern Department, and who would assume command of invading forces, is shown at the right.

SOVIET PLAN FOR TERROR STRIKE.

CHICAGO, Aug. 17.—The United States is facing the greatest strike in its history—a strike that will tie up every plant in the country—according to union labor leaders who have been engaged for nearly a year in unionizing the great steel plants in the Chicago, Gary, Milwaukee and Pittsburgh districts.

William Z. Foster, general organizer for the American Federation of Labor, declared today the steel workers were now so well organized here a general strike would tie up every plant in the country.

Even now a strike vote, which will be completed August 20, is being taken among the workers affiliated with the union, while organizers are working night and day in the big steel plants in Pittsburgh to get every employee of the plants into the organization.

The Chicago, Gary and Milwaukee workers already are organized. Saturday 400 delegates representing 200,000 workers in these three districts, met at 19 West Washington street. A strike vote was taken and 98 per cent of those present voted to strike.

NEW YORK PARALYZED BY TRACTION STRIKE.

VAST SUBWAY AND ELEVATED SYSTEM ABSOLUTELY TIED UP ENTIRE DAY.

(BY A. P. NIGHT WIRE.)

NEW YORK, Aug. 17.—The vast subway and elevated system of the Interborough Rapid Transit Company, operating in Manhattan, the Bronx and parts of Brooklyn and Queens, was completely paralyzed today by a strike called last night by P. J. Connelly, acting president of the Interborough Company employees. The day passed without a trolley running on the surface lines of the New York City and the Manhattan spurs of the Brooklyn Rapid Transit Company, which use Interborough power.

Three power-houses resumed operation an hour later, however, permitting the resumption of traffic on these lines, which were jammed throughout the day, as were the steam railroads, automobile trucks, sightseeing boats and local lines, which essayed to take care of the crowds.

The strike was declared by the police to be, so far, one of the most orderly large strikes ever called in New York.

Investigation by Dist. Atty. Swann of New York county and Dist. Atty. Martin of the Bronx today will be resumed in an effort to obtain evidence in substantiation of Mayor Hylan's charge that the strike was the result of collusion between officials of the Interborough and the brotherhood, which is a company union, in an effort to force an increase in fares.

Dist. Atty. Martin announced tonight he had received several reports that strikers had declared they did not care how long the strike lasted, as they were "getting paid for striking."

MEXICAN BANDITS THREATEN FIRING SQUAD FOR AVIATORS.

Demand \$15,000 Today for Return of Missing Members of Border Aerial Patrol or Declare They'll be Shot; Washington Notified; Military Chiefs Act.

WASHINGTON, Aug. 17.—(Exclusive Dispatch.)—Secretary of War Baker, Gen. Peyton C. Marsh, Chief of Staff of the Army, and Adj.-Gen. Peter Harris were in conference tonight at the War Department, but refused to confirm or comment upon the news that Mexican bandits had demanded the payment by them of \$15,000 ransom for Lieut. Paul R. Smith of California, and Harold G. Peterson of Hutchinson, Minn., army aviators, who have been missing several days.

"I decline to make any comment tonight," said Secretary Baker, when his attention was called to press dispatches stating that official announcement had been made by Maj.-Gen. James E. Erwin of the capture of the two fliers.

Gen. Marsh and Gen. Harris also refused to make any statement or answer any questions.

Although official comment was refused, it was hinted tonight in army circles that the silence of the Secretary and other high officials was due to the necessity for secrecy in carrying out any plans decided upon by the department to deal with the situation.

(BY A. P. NIGHT WIRE.)

MARFA (Tex.) Aug. 17.—Letters purporting to be from Lieut. Paul H. Davis and Harold G. Peterson, American army aviators, missing since last Sunday, were received here today at military headquarters. The letters stated the aviators were being held by bandits for \$15,000 ransom somewhere in Mexico and were threatened with death unless the ransom was paid, according to the letters.

The demand for the ransom was received here today and a report made at once to Maj.-Gen. Dickman, commander of the Southern Department.

An unconfirmed report was also received here that the aviators were being held at a point close to the American border, and that Chico Cano, a famous bandit of the Big Bend-Ojinaga district, was the leader of the bandit band holding the aviators.

Lieut. Peterson, the pilot of the biplane which has been missing since last Sunday, is 22 years old and is from Hutchinson, Minn.

Lieut. Davis, is 23 years old and is from Strathmore, Cal., but has relatives in Berkeley, Cal. EL PASO, Aug. 17.—In an official statement issued at military headquarters here tonight and signed by Brig.-Gen. James B. Erwin, district commander, it was announced that Maj. L. A. Walton, commander of the aero unit at Fort Bliss, had received a message from Lieut. Paul H. Davis and Harold G. Peterson, stating they had been captured by Mexicans and were being held for \$15,000 ransom, which must be paid by August 18, according to the message.

Arrangements were being made tonight to obtain \$15,000 gold coin and send it to Marfa early tomorrow for the payment of the ransom, as it is feared they will be killed by the bandits unless the ransom is paid before tomorrow night.

OFFICIAL REPORT CONFIRMS CAPTURE.

The full text of the statement issued at military headquarters tonight by Gen. Erwin, reads as follows:

"A telegram was received this afternoon by Maj. L. A. Walton, commander of the aero unit at Fort Bliss, repeating a message signed by the two aviators who have been missing since Sunday, stating they had been captured by Mexicans and were being held for \$15,000 ransom, which must be paid by August 18, or they would be killed.

"This message was brought into a town in the Big Bend district by a well-known bandit. Col. George T. Langhorne, commanding officer of the Eighth Cavalry, and the Big Bend district, wired the commanding general of the El Paso district that the message is authentic and that he is taking all necessary measures to secure the release of the aviators and has presented this matter to the proper authorities. The name of the place from which the message was sent, as well as the place where the ransom is to be paid, is not given, as it might interfere with the release of the aviators."

Aviators Peterson and Davis are a part of the personnel of the Fort Bliss Aviation Corps, but were on detached duty with the Big Bend district military headquarters at Marfa, Tex., at the time they disappeared. They left Marfa last Sunday morning for the usual patrol of the border, planning to follow the north bank of the Rio Grande, to the end of the district.

BECAME CONFUSED ON RIVERS.

It is believed by aviation officers here they confused the Conchos River, which flows into the Rio Grande, near Presidio, Tex., with the Rio Grande, and followed the course of this river into the interior of Mexico. Another theory advanced here by fellow-aviators is that they were forced to land, either on the American or Mexican side of the border in the wild country of the Big Bend district and were made prisoners by the Mexican bandits, who make marauding trips across the border at frequent intervals in search of cattle and other property which they carry off to Mexico.

When it became known at Fort Bliss tonight that the aviators were reported held by Mexican bandits, there was much discussion among army officers of the possibility of American troops crossing the border in search of the bandits who were holding the aviators prisoners. This was discredited by higher officers for two reasons. The principal one advanced was that the American aviators would be killed if an expedition crossed in pursuit of the bandits. The other reason was that orders for expeditions to cross the border in the Big Bend district apply only in the pursuit of bandits who have stolen property on the American side and then only to follow a "hot trail."

ARMY CHIEFS CONFERENCE.

(BY A. P. NIGHT WIRE.) SAN ANTONIO, Aug. 17.—Maj.-Gen. Joseph T. Dickman, commander of the Southern Department, and staff officers were in conference late tonight over reports from Candalaria, Tex., that Lieut. Davis and Peterson, army aviators, are being held by Mexican bandits for \$15,000 ransom, which army authorities have been advised, must be paid Monday to Dawkins Kipkari, a storekeeper at Candalaria, under penalty of death for the aviators if the money is not forthcoming.

Gen. Dickman said reports received indicated that the two aviators came down at the little town of Dilbar, which is on both sides of the Rio Grande. He declined to state what steps had been taken to rescue the men or whether he had

RELATIVES APPEALED TO.

(BY A. P. NIGHT WIRE.) EL PASO, Aug. 17.—Replies to messages sent their relatives by Lieut. Paul H. Davis and Harold G. Peterson, American aviators reported held for ransom in Mexico, were received at Marfa, Tex., late tonight. The messages from the aviators were received at the same time the demand for the \$15,000 ransom for the release of the aviators was brought to the border today. An of-

OFFICIAL STORY FROM DAY TO DAY.

Aug. 10.—Lieut. Paul Davis and H. G. Peterson left El Paso on their patrol of the Big Bend district.

Aug. 11.—They fail to report at Marfa, according to schedule and report is sent out from there that they are missing and have "possibly" mistaken the Rio Conchos, which is at flood tide, for the Rio Grande.

Planes are sent to search for them.

Aug. 12.—From the El Paso headquarters of the air patrol word comes that the two officers are still missing and there is "a concern" over their disappearance.

Aug. 13.—A dispatch from El Paso announces that the missing men have been "located" forty miles up the Rio Conchos in the Mexican hills. The news was brought to Presidio, Tex., by a Mexican.

Aug. 14.—Confirmation of the "location" of the missing men comes from Southern Department headquarters at Fort Sam Houston, San Antonio.

Aug. 15.—Officially inspired dispatch from Fort Sam Houston announces that the two officers are "officially missing," that the search for them has "been futile."

Aug. 17.—Dispatches from Marfa announce that the two officers are held for \$15,000 ransom under threat of execution Monday morning. Letters from the captives implore authorities to send the ransom money.

FOR SAGGING AND FLABBY CHIN

FRAGRANT INCENSE WILL PERFUME YOUR HOME

When burned in incense burner, it will perfume the room, purifying the air and giving a pleasant odor.

At your dealer's or send for one. It will forward you the incense burner and incense.

ASK HOLLAND TO PROTECT KAISER

Prussian Army and Navy Officers in Deep Appeal.

Refer to His "Religious Nature and Pure Heart."

Say Enemy Devoid of All Chivalry and Dishonorable.

(EXCLUSIVE DISPATCH.)
WASHINGTON, Aug. 17.—The complete text of the appeal of the officers of the Prussian army and navy to the Kaiser, the Queen, the Netherlands and the States-General, not to surrender William Hohenzollern to the Entente Powers, was received here today through official channels. It reads:

"BERLIN, June 19, 1919.—The former royal Prussian army and the imperial navy have been in the field, and have fought bravely against their enemies, together with the remaining German federal contingents, for four and one-half years, under the leadership of their supreme war lord and of their officers."

"Attributed to treason. Treasonable machinations in the own country, not the enemies' armed power, ultimately broke the army's armed force; our beloved, never-to-be-forgotten supreme war lord, the German Emperor, and King of Prussia, to whom we shall adhere until death with the old steadfast loyalty, took refuge in the Netherlands in consequence of the revolution, where, as the highest of the Prussian officers, he must be considered interned, according to the laws of war. In addition to other existing peace terms, our enemies, devoid of all chivalrous feeling, have made the humiliating and dishonorable demand that the German people should surrender our Emperor and King to their jurisdiction, a demand of which we, as Prussian officers, know that with their deep religious nature and pure heart, he personally is guiltless of all blame for this war."

"A section of our fellow-countrymen, impelled by the fear for life and property, have shamefully agreed to the above demand made by their disloyal and traitorous enemies, who know perfectly well, who have been at the bottom of the great and terrible war for Germany and Prussia."

"Denounce countrymen. The officers of the Prussian army and of the imperial navy disavow themselves entirely from these traitorous countrymen, from whom they are divided by an unbridgeable gulf. As they are unable personally to protect their supreme war lord, nothing remains for these officers but to appeal to Your Majesty and the States-General's high offices and sense of justice, definitely to refuse your consent to the enemy Entente's demand for the surrender of His Majesty, the German Emperor and King of Prussia."

"German blood flows in your Majesty's veins; old ties of blood unite the houses of Orange and Hohenzollern. As ruler over an ancient and noble people, whose army and navy have fought bravely for you, your Majesty will know how to appreciate the feeling of the officers who make this request."

"Call on friends. We, the officers of the Prussian army and navy, call on our friends, the German people and the States-General, to remember the centuries-old unbroken friendship between the Hohenzollern people and the former German people and sustained by the unimpeachable sovereignty and the definite right of the Dutch nation to deny to any Prussian officer interference on the part of his enemies in the question of surrendering our Emperor and King."

"Confident as the officers are that their request will be fulfilled by His Majesty the Kaiser, and by the high states-general, who may be equally confident of the inextinguishable gratitude of the officers of the former royal Prussian army and navy."

JOSEPH CLAIMS HE WILL QUIT.

As Patriotic Duty He Acts as Hungarian, not Hapsburg.

For Himself He Asks Only to Live in Home Country.

Now Occupies Palace Which was Used by Bela Kun.

BY A STAFF CORRESPONDENT.
(BY CABLE-EXCLUSIVE DISPATCH.)
BUDAPEST, Aug. 14 (via Paris, Aug. 17).—In view of the criticism in Entente circles, especially in England and America of the return of the Hapsburgs to power in this country, it seemed desirable to obtain from Archduke Joseph a full explanation of his position and intentions.

The archduke now is occupying his palace, which the Bela Kun regime used. Officers of the Red Guard denied its parquetry floors with the Hapsburgs of the proletariat. The archduke had just finished listening to a delegation of Hungarian-Germans when he gave this interview. He was asked if his assumption of temporary government was as has been charged, part of a royalist plot.

"AS HUNGARIAN, NOT HAPSBURG. 'Absolutely not,' he said. 'I consented to take up this task solely from a sense of patriotic duty. I came as a Hungarian, not as a Hapsburg.'

"It was represented to me by the first officers who visited me that I alone was to save the situation. With my country in danger it is my duty to help."

"Just as soon as the new Cabinet is formed and firmly established, I am going to leave Hungary. I ask nothing more for myself than to make my home in Hungary. The problem of the Cabinet is to prepare the way for the National Assembly."

"AS TO THE CROWN. 'In the event the National Assembly would vote for a monarchy and request you to become King, what would be your decision?' I asked."

"That is very difficult to say at this time. I cannot tell what my reply to such a proposal would be until it had been made."

"I suggested that the people of the western nations know very little of his personality or popularity among his own people, but that the name of Hapsburg meant a great deal. The archduke smiled and said he could not tell either his name or his birth."

"CABINET TO INCLUDE ALL. It is significant of the modification of the plans of the present government that the archduke said he would retire as soon as the new government is formed, because when I saw his Prime Minister the other day, the latter said the archduke would remain."

"Asked if the socialists would have place in the Cabinet that he is forming, the archduke said they would, adding that if they could not be represented he would not have anything to do with forming a Cabinet, and that it was his purpose to have all classes included."

"PREMIER'S ANNOUNCEMENT. (By cable and newspaper news.)
BUDAPEST, Aug. 14.—Archduke Joseph's position was stated by Premier Frederic on announcing the names of Martin Lovassy and other members of the new government as follows:

"Archduke Joseph makes no promises now, as his withdrawal would lead to civil war."

"The new Ministers expect to hold an until a Parliament is elected. Having the Ministers of Commerce, Welfare and Food open for the Socialists whenever they are willing to come in, although naming temporary cabinet members at this point."

"Count Julian Andrusky, Foreign Minister in the recent Lovassy Cabinet, has expressed himself in favor of recalling the old Parliament immediately, instead of trying to hold elections. The new Ministers will await to see how the situation develops."

"The new Ministers will await to see how the situation develops."

"The new Ministers will await to see how the situation develops."

"The new Ministers will await to see how the situation develops."

PHILAN FIGHTS JAPS INGRESS.

Opposes Dillingham Bill for Immigration.

Says it is Gulick Plan Favoring Orientals.

Claims Japan's Duplicity is Now Exposed.

(EXCLUSIVE DISPATCH.)
WASHINGTON, Aug. 17.—Senator Philan tonight denounced the latest scheme to allow the Japanese greater ingress into the United States. He said:

"The Japanese immigration question has at last been brought before Congress in a definite form. Senator Dillingham of Vermont, ranking member of the Senate Immigration Committee, has introduced Dr. Sidney L. Gulick's bill, providing for the admission of 5,000 per cent. annually of the number of persons of Japanese birth and descent in the United States, Hawaii, Porto Rico and Alaska of any foreign nationality. This means the legalizing of Japanese immigrants, teachers, etc., and further enlarges it by giving the Secretary of Labor power to admit as many as he pleases 'as a measure of effecting their assimilation.'"

"This, to say the least, is very inopportune and grossly unjust to the State of California, which is seeking every means possible of rid itself of the Japanese."

"CHARGE AGAINST GULICK. 'Dr. Sidney L. Gulick, I charge, is acting for the Japanese in order to effect their cunning methods to secure them a foothold by lumping them with all other foreigners, assimilable and non-assimilable, desirable and undesirable.'"

"My attention has been called to a letter written June 25, by K. K. Kawakami, the American representative of the Japanese, in which he stated that the Japanese government was recently called a convention of this body, a government within a government, to decide whether the Japanese in America should be instructed in the English language. This letter proves that the Japanese are not only a Japanese agent, and that the bill is the result of collaboration with Mr. Kawakami."

"I notice in the press that Van Buren, president of the Fourteen Counties Association of California, has insisted that the Japanese error to call an extra session of the Legislature to perfect and strengthen immigration laws."

"I have heard more than once requested the Governor to act, but he does not seem in the slightest degree to care for the Japanese. He has called the Legislature together the day after tomorrow. Their session will be unfortunate if they are forced to secure relief by that slow method."

"The duplicity of Japan has been exposed to the world and her methods, long practiced in California, are now known everywhere. The rapidity of the Japanese acquisition of land and the opportunity to the Legislature to act, but he does not seem in the slightest degree to care for the Japanese. He has called the Legislature together the day after tomorrow. Their session will be unfortunate if they are forced to secure relief by that slow method."

"Mrs. Campuzano is in New York where she spent a honeymoon that was filled with blissful happiness for a few weeks and then, according to her attorney, was a 'wife of hell.'"

"Just a year ago, August 31, 1918, amid the flying atmosphere of San Antonio, Tex., Capt. and Mrs. Campuzano were married. He, a native of Cuba, had been sent to the country to teach America how to fly."

"He is a large, powerful man, the bill reads, 'an aviator in the French army. He prides himself on his handsome appearance and colorful strength and reveals with conceit and egotism that he can subdue his wife by vicious attacks.'"

"According to the bill the aviator knocked his wife down and buried her from the hall where she had fled from one room to another in their flight. He is also accused of smashing many dollars' worth of personal property and demolishing chairs, vases, family photos, trinkets and has spent her money and made no effort to earn his own."

"The keys, each about ten inches in length, were found in the officer's bedding roll. The officer himself has not been at Camp Devens and it is thought his baggage was sent there by mistake. The keys came into his possession was not made known here."

"Army officials at the Northeastern Department decline to comment upon a report that the keys had been handed to Gen. Pershing on the occasion of his visit to London as a symbol of the granting of the freedom of the city and were missing when it came time for them to be returned to the Lord Mayor."

"WOMAN SUES ESTATE OF DEAD MILLIONAIRE. HOTEL PROPRIETRESS CLAIMS CONTRACT AS COMPANION TO COMMODORE."

(EXCLUSIVE DISPATCH.)
ONKBY (Mass.) Aug. 17.—Miss Jennie M. Lynch, proprietor of Hotel Onkby, who has brought suit for \$200,000 against the estate of the late Commodore F. P. Lynch, many times a millionaire, alleging breach of written contract, could not be seen at her home here but the reporter was referred to her counsel, Judge Nathan Washburn of the Fourth District Court of Plymouth county. He issued the following statement:

"Miss Lynch has the signed agreement by which Commodore Lynch contracted to pay her \$12,000 a year for her services as a companion of a personal character. She had been his companion. The Commodore had shown great regard for her and had been in her possession fifty or more letters and postcards which will bear out this claim. Commodore Lynch died last November and at the time of his death the contract had been practically complied with. Her last communication from Commodore Lynch was in 1918 and he had called on her as late as 1913 at Onkby."

"Three days beginning tomorrow—Tuesday morning, at 9 o'clock. Boys' Dept., Third Fl."

LONG BEACH FIRE CHIEF STILL ON JOB.

COMMISSIONER SAYS HE EXCEEDED AUTHORITY ORDERING DISMISSAL.

LONG BEACH, Aug. 17.—Following the admission by Commissioner of Public Safety W. M. Peck that his order dismissing Fire Chief G. C. Crow was in excess of his authority, Fire Chief G. C. Crow was reinstated today and the signs around the city of Long Beach were removed. The Commissioner, however, stated that since he had the power to remove the Chief of Police under similar conditions, he would remove the fire chief also.

An investigation, however, revealed the fact that the Commissioner of Public Safety does not have the power to suspend the chief of the fire department under the city charter. The Commissioner, however, stated that since he had the power to remove the Chief of Police under similar conditions, he would remove the fire chief also.

Fire Chief Crow, charged with felony embezzlement, will have his preliminary hearing before the Superior Court today. The Commissioner of Public Safety, however, stated that since he had the power to remove the Chief of Police under similar conditions, he would remove the fire chief also.

IDAHO'S FOREST FIRE MAY BE CONTROLLED. EFFORTS ARE CONCENTRATED ON FIFTEEN-MILE FRONT AT LOCKSAW CREEK.

(BY A. P. NIGHT WIRE.)
LEWISTOWN (Idaho) Aug. 17.—There is a prospect that the west end of the Locksaw Creek Forest fire, this point being about thirty miles from the town of Lewistown, may be under control.

The front of the fire there is fifteen miles long and at the narrowest point is eight miles wide.

PORTLAND (Or.) Aug. 17.—With weather conditions more favorable, the fire at Locksaw Creek, near Lewistown, Idaho, is under control. The fire is now about fifteen miles long and at the narrowest point is eight miles wide.

PORTLAND (Or.) Aug. 17.—With weather conditions more favorable, the fire at Locksaw Creek, near Lewistown, Idaho, is under control. The fire is now about fifteen miles long and at the narrowest point is eight miles wide.

BALKAN TANGLE UP TO AMERICA.

Solution of Thracian Problem is Near.

France and England Agree to Wilson's Plan.

Greed of Greece will be Curbed by Treaty.

(EXCLUSIVE DISPATCH.)
PARIS, Aug. 16.—The American solution of the Balkan tangle, comprising Greece, Bulgaria, Thrace and Turkey-in-Europe, probably will be accepted by the Peace Conference, although some wrangling will continue, with Greece trying to get everything, supported by France and Britain through the secret agreements reached when King Constantine abdicated and Greece accepted the mandate for Constantinople and Turkey after all, and neither one can trust the other to administer this highly strategic point. If America refuses a mandate over Constantinople it is more likely that the peace will be set up there with the British and French acting as advisors.

AMERICA'S PLAN. The American plan for regulating the Balkan tangle provides an extension of the Greek territory to Thrace. From the present frontier eastward to a point half way between Cavala and Dedagatch the land is made an independent State, insuring Bulgaria the right of access to the Aegean Sea, and protecting the Greek territory from the Bulgarians. The French and British experts who have been on the ground since the war, believe that a feasible solution of the Balkan tangle is the only way to secure peace in the Balkans, as Bulgaria would never consent to let the Greeks control the point from the Aegean to the Black Sea, and the Greeks would go to war at the first opportunity to regain this territory.

The Greeks' only objection to the American proposition is that the Greek railroad runs across the proposed international State but it is argued that this can be left under Greek administration.

CRANE PARLEY OFF. WASHINGTON, Aug. 17.—Permission granted to Richard T. Crane, American Minister to Czechoslovakia, to proceed to Warsaw, and there confer with American Minister Morrison for the effect such a meeting might have on the discussion between Poland and Czechoslovakia over the settlement of the Teschen district, but he was revoked.

It was learned today that this government was said to have taken the position that such a conference of the American minister would create the impression that the United States was attempting directly to influence the negotiations in regard to Teschen, whereas it is a matter for the Peace Conference to determine if the parties directly interested are unable to reach an agreement.

SLIPPER IS EFFECTIVE TO DISCIPLINE GIRLS. TRENTON (N. J.) Aug. 17.—The old-fashioned house slipper is still found to be one of the best methods of maintaining discipline in the service of girls according to testimony given in an investigation of conditions of the home following outbreaks among the inmates. Mrs. Katherine Carey, assistant superintendent, is official wielder of the slipper, so the testimony showed. The spankings were administered to four girls, who have given the officials no trouble since.

It was also brought out that hand-cuffs were used on one of the girls, but only as a means of preventing her from harming herself. Dr. Mary Harris, superintendent of the institution, testified that several of the girls attempted recently to fire one of the buildings, hoping to gain their freedom in the excitement.

STOCKINGLESS GIRLS SHOCK SAN FRANCISCO. POLICE RESCUE THEM FROM CRANING STREET MOB AND THEN ARREST THEM.

(EXCLUSIVE DISPATCH.)
SAN FRANCISCO, Aug. 17.—While the world may be safe for democracy, it is no particular haven for stockingless girls, so far as San Francisco is concerned. The girls were rescued from a mob of cranes and then arrested.

For when Marjorie Tyler and Jane McGee, little attractions of a show now at a local theater, walked down Market street in not-too-long skirts and sans hose, such a craning mob surrounded them that traffic was obstructed for ten minutes. And the result? They were arrested.

Several complaints were made to the police; the traffic policeman at Third and Market streets had difficulty in dispersing the mob, and finally succeeded in rescuing the two frightened young women, and placing them in a taxicab, sent them to their hotel.

Meantime, warrants charging them with the misdemeanor offense of obstructing traffic were issued at the suit of Justice, and Police Al Williams was dispatched to take the two in custody. He awaited them at the stage door, and when they appeared he arrested them. They were arrested. They were arrested.

There was something of a riot at the stage entrance when the two young misses were arrested. The policeman led them away, and handed them into a waiting closed car, preparatory to conveying them to the City Hall, when other members of the company went to the stage with their belongings. They appear in court tomorrow morning.

CURIOUS DIVORCE CASE BASED ON ENGLISH LAW

HUSBAND GOES BACK TO ANCIENT CODE TO FORCE WIFE'S RETURN.

CHICAGO, Aug. 17.—Lawyers who are concerned with cases involving marital relations are discussing an action brought in the Superior Court to compel one Frieda Hecht to resume marital relations with her husband Arthur, who alleges she has deserted him and their two children. Erbshten, who filed the bill for Mr. Hecht, admits that he can find no American precedent for his action, but bases his case on the old common law of England, which is the law in Illinois, except as abrogated by statute. Other attorneys who were willing to express an opinion said they believed the divorce laws did make impossible such action as was filed against Mrs. Hecht.

PACKERS READY FOR A FIGHT.

and if so, what is the object of these conferences? "Are the various cold storage products of like kind of the several packers sold at the same price or different prices, and if so, will you give me illustrations of difference in prices at which the packers have sold within the last year?"

UNIONS BLAME PACKERS.

CHICAGO, Aug. 17.—A proclamation charging Chicago's packers with responsibility for the recent race riots and declaring that similar troubles even more violent are imminent, has been issued by the Chicago Federation of Labor.

PRINCE OF WALES AT HALIFAX

HALIFAX (N. S. A.) Aug. 17.—The Prince of Wales arrived here at 1:30 o'clock today on board the cruiser Dragon from St. John, N. B. Half an hour later he returned to the battleship Renown upon which he crossed the Atlantic and which came here from St. John's, N. F., after the Prince's visit to that city.

Mrs. Sloan-Orcutt says:

President Los Angeles Park Commission

Thrifty citizens make a great city. Without thrifty citizens who recognize the value of civic improvements, Los Angeles could not maintain her beautiful parks. Therefore, aside from every personal benefit that the THRIFT habit brings—and they are many—we should consider it our civic duty to save systematically.

Mrs. Sloan-Orcutt

OUR Term Savings Account is the ideal form of deposit for the man or woman who wants to save systematically. We pay four per cent interest on deposits remaining six months or more.

FORMER RUG PEDDLER IS "HIGH" FINANCIER.

SEAPORT OFFICIALS WATCH AS BANKERS WONDER IF NOTES OF \$300,000 GOOD.

CHICAGO, Aug. 17.—Seaport officials of the United States, Mexico and Canada are reported to be on the watch for Herman J. Blumson, alleged meteoric financier, who two years ago was a rug peddler on the streets of Chicago.

Associates in the Star Cereal and Milling Company, of which Blumson was president, charge that he has in his possession \$100,000 of diverted corporate funds.

Meanwhile public accountants are seeking to determine whether the eight drafts on which the flour miller and self-styled philanthropist secured about \$100,000 from Chicago banks are good or bad.

The last known of Blumson he was in Detroit. It is believed he plans to sail, or already has sailed, from St. John, N. F., for South Africa, where his wife and children are living. Letters he left show how Blumson worked. He posed as a supporter of Mayor Thompson and also of candidate Dewey, playing both sides, getting in the good graces of both, receiving their written thanks and then using the letters as "proof" of his own importance.

He assumed the role of philanthropist and was elected president of the Detroit Educational Alliance, which conducts a social center on the northwest side, so that he could meet men and women of wealth and use their names to make himself welcome in various banks.

He emulated the philanthropies of Julius Rosenwald, saying "for every dollar Julius gives I give two," and, it is believed, forged a letter from Mr. Rosenwald to himself so he could show it and still further improve his standing.

Blumson was born according to his passport, near Konigsberg, Poland, 58 years ago. About thirty years ago he got into trouble because of some transaction with merchants there and was forced to flee to New York. He was naturalized in 1892 and married in Jersey City. Several times he visited Europe and finally he went to South Africa, leaving his wife and three children there to come to the United States in 1914.

The world war started while he was on his way. He reached Chicago, got a job peddling rugs for Isaac May and kept his eyes open. His chance came when he met two years ago, a man named Weinstein, owner of a garage. Weinstein was fighting the erection of a four mill near his garage, claiming it would hurt his property.

"A mill? A fine thing," Blumson told him. "Let's buy it and run it ourselves."

Weinstein "fell." He put up \$1000. Blumson promised \$2500. He actually put in \$150, but he got the mill.

No profits came out of it—for Weinstein and the garage owner. Finally told Blumson "You've got to buy me out or sell me your interest."

So Blumson bought. Weinstein got back \$1700 of his \$5000 and was happy—until he learned that the mill had made \$100,000 in a year on war business. Then he sued and got \$5000 more.

THREAT TO KILL U. S. AVIATORS.

(Continued from First Page.)

The aviators also was authorized to inform the bandit leader of this fact.

ADVISE AGAINST SEARCH. (BY A. F. NIGHT WORK.) MARFA (Tex.) Aug. 17.—A message from a former Villa follower, now a member of the bandit band, was received at the border late today threatening to kill the American aviators if any evidence of military movements to search for the Americans were seen on the American side of the border. This message was addressed to Watkins Kilpatrick. It was announced here.

BLOODIEST BORDER SECTION. (EXCLUSIVE DISPATCH.) MARFA (Tex.) Aug. 17.—It was Sunday, August 10, that Lieut. Davis and Peterson, who were sent to border service from Kelly Field, Tex., started to patrol the long dangerous sector of border territory known as the "Big Bend District." In this sector of desert wastes, cactus, mesquite and utter desolation many American lives have been taken by the Mexicans.

It is the bloodiest stretch of that long line of American frontier which follows the Rio Grande. The two aviators left El Paso. They disappeared, and not until today was their fate known. But today in that lonely arroyo there is a hole in the sand ready for the burial of two men. The bodies were found in the bottom of the hole in quick time. There will be no trace of the bodies when the usual investigation comes.

Official announcement, August 11, said that the men had apparently left the American side of the border near Presidio, Tex., "having mistaken the Rio Concho, now at flood tide, for the Rio Grande, and had followed it into the heart of the hill district." A fleet of planes was sent out on a search. August 12 announcement was made that no trace of the missing men had been found and that the headquarters of the border patrol, which is commanded by Maj. Edgar Tobin of San Antonio, was "much concerned."

CONFLICTING REPORTS. August 14, it was announced that the men had been "located" forty miles up the Concho River in the

colors as being black, red and gold, and states that the generally recognized rules of international law will be held as binding on the empire.

Individual states will have legislative rights, but the imperial law will supersede those of individual states. Each state must have a liberal constitution.

GERMAN CONSTITUTION HAS TWO MAIN PARTS

(BY CABLE AND ASSOCIATED PRESS.) BERLIN, Friday, Aug. 15.—The new German constitution, which was passed by the National Assembly after months of debate, and which became effective this week, is divided into two main parts—the "composition and ties of the empire" and the "basic rights and basic duties of Germans."

The preamble to the constitution begins as follows:

"The German people, united in its branches and inspired by the will to renew and strengthen its empire in freedom and justice, to further inner and outer peace and social advance, has voted this constitution."

Section one declares the German empire is a republican state, sovereignty being based on the people. It describes the territorial limits of the empire, establishes the imperial

WOMAN MAKES AUTO RECORD.

Philadelphia Couple Complete Transcontinental Drive.

Car Service at Pasadena Shows Marked Improvement.

Church Goes Provide Autos for Neighbors.

(EXCLUSIVE DISPATCH.) PASADENA, Aug. 17.—With Mrs. Simpson driving the entire distance Mr. and Mrs. M. Verner Simpson of Philadelphia have just arrived at the Maryland in Pasadena after a 6600-mile journey. They drove as casually and comfortably in their big touring car as if they were merely out for a jaunt near home. They came by way of the northern tier of States to Seattle and thence down the coast. They stopped at Yellowstone, Rainier National Park, Crater Lake Park, San Francisco, Del Monte and Santa Barbara. Mr. and Mrs. Simpson motor from Philadelphia to Pasadena every summer and motor home again in the late autumn. This is Mrs. Simpson's third transcontinental drive and she has perhaps driven a car a greater total distance than any woman in America. Mr. Simpson is an attorney of Philadelphia. Every summer he and Mrs. Simpson hear the call of the road and California.

ENTERTAIN MISSIONARIES. Miss Miranda Myers, a returned Pasadena missionary, and Miss Eva Springer, who sails in a few days for a missionary post in the Orient, will be tendered a reception tomorrow night at the home of Mr. and Mrs. Frank H. Wallace. Both are missionaries of the Methodist church. Miss Myers has been laboring at Lucknow, India, paying her own expenses and salary.

LUNCHEON AT THE "Y." The Pasadena Y.M.C.A. will host next Thursday to G. M. Martin, metropolitan physical director of the Chicago Y.M.C.A. A luncheon will be given in the visiting official's honor.

CAR SERVICE IMPROVES. Additional service was offered by the Pacific Electric in Pasadena today, the second day of the car employees' strike. The company today inaugurated a service from Pasadena to Sierra Madre, which was not afforded patrons yesterday. Also a car service to Los Angeles every thirty minutes on the Short Line and every forty-five minutes on the Oak Knoll line. However, this service stopped in the early evening, no cars being scheduled after 8 o'clock.

Pacific Electric officials announced this as a precaution for safety. No attempt was made by the Pacific Electric to resume service on Pasadena local lines today although officials said they hoped to

have cars operating on the principal local lines tomorrow. One of the features of the street-carless Sunday was the movement among the automobile-owning church members to take their fellow members who ordinarily depend upon the street cars, to church and back. There has been no order here resulting from the strike.

RIVERSIDE POLITICS.

Many Candidates Being Groomed for Fall Election.

(LOCAL CORRESPONDENCE.) RIVERSIDE, Aug. 17.—Interest in the general city election to be held in November is gradually kindling, with the circulation of petitions seeking out candidates for the Mayoralty. Mayor Horace Foster has announced he will seek re-election, and Lyman Evans, for twenty years District Attorney of Riverside county, has been waited upon by a committee of citizens and urged to become a candidate. Other offices to be filled at the fall election include those of City Clerk, City Auditor, Treasurer, Councilmen and members of the Board of Education.

FRUIT IN FIGURES.

Golden Crop Raised at Redlands is Enough to Gird the Earth.

(LOCAL CORRESPONDENCE.) REDLANDS, Aug. 17.—Redlands supplies an orange belt for the whole world each year, according to figures of one of the fruit men of the city. He has found that if the 3,500,000 oranges shipped from this city during the past year were placed touching each other on the equator they would make an orange belt for the whole world, with enough left over to form the buckle and to strap it with. He reached his figure by taking an average number of oranges to each box, the number of boxes and then an average number of inches for each orange. Redlands has a right to the title of "the orange belt" in more ways than one, according to the pencil shark.

OLD-TIMER RETURNS.

(LOCAL CORRESPONDENCE.) VENTURA, Aug. 17.—Alex Street, of Sacramento, who was in business in Ventura in 1874, has just completed his annual visit here. Every year Street comes back to Ventura-by-the-Sea to look up old cronies and talk with them and their children and children's children. Although decades make broads every year in the ranks of the old-timers, there are still many here who were living at the time Street was here.

BURIED IN HAY.

(LOCAL CORRESPONDENCE.) VENTURA, Aug. 17.—When James Hutchins and his driver collided with a load of hay on the Ojai road yesterday, both Hutchins and the car were for some time completely lost to view. In endeavoring to pass the hay rack he struck it and the load of hay toppled over on him. No one was injured, but the windshield of the car was cracked. The hay wagon was driven by Charles Davidson.

JACKIES SPEND BUSY SUNDAY.

Sailors of Pacific Fleet Attend Religious Services.

Santa Barbara's Entertainment Programme Accepted.

Radiogram Tells Location of Transport Sherman.

(BY A. F. MONT WIRE.)

LOS ANGELES HARBOR, Aug. 17.—Despite the Sabbath and the religious atmosphere which church services aboard ship produced, this was a busy day for the officers and men of the Pacific Fleet, lying in this and near-by harbors. Among the most important business transacted was the definite acceptance of the entertainment programme to be offered by Santa Barbara, off which the fleet will drop anchor Tuesday afternoon.

In the early morning the necessary work of the fleet was performed—the scrubbing of the decks and the polishing of certain brasses and apparatus—and then the men allowed liberty were sent ashore. They went with a warning to be certain, because of the Pacific Electric strike, that they had money and means of transportation to insure their return at the designated hour.

Protestant services were held aboard the flagship New Mexico and Catholic services and mass on the dreadnaught Mississippi and the cruiser Charleston. Men of the ships were invited to attend the service they preferred.

At 10:15 o'clock the ship's bell of the New Mexico, which usually announces the hour of day or night in a positive clangor, began to toll for church. Its tolling, while brief, was solemn, and it brought more than a hundred men, who listened to the ship's chaplain, Lieut. T. P. Riddle, in a few brief remarks; to singing, and to testimonial speeches by members of the Church of the Open Door of Los Angeles.

Meantime, in the flag office, where the business of the fleet is transacted, the radiograms received overnight were being given official attention.

One told of the position of the army transport Sheridan, which lost a propeller several days ago while on the way from Honolulu to San Francisco. She reported she was 906 miles out from San Francisco, the sea was smooth and "all well." The destroyer repair ship Vestal, on the way to meet her and tow her into port if necessary, is expected to reach her about 8 o'clock Tuesday morning.

RECONSTRUCTION.

Redlands Man Tells of Rebuilding of European Countries.

(LOCAL CORRESPONDENCE.) REDLANDS, Aug. 17.—John Winston, son of Mr. and Mrs. L. M. Winston, has returned to Redlands from France, where he has served for more than a year with the Friends' Reconstruction Unit.

He was first engaged in canteen work in Paris, and one day, with two other workers prepared luncheons for 1200 refugees going south through Paris during the great German offensive in 1918. He was then stationed at Evian-les-Bains, in the service of repatriates, captured French people sent through Switzerland back to France. Most of these people were old and sick, no strong ones were sent out of Germany. He was then stationed at Villers-sur-Chattillon, in the work of putting up the three-room, double-valued portable homes the Quakers built in thousands for the devastated areas of France, and then went to the Verdun country, and says that there practically no houses could be salvaged, new ones had to be put up for the homeless people. While he was at Reims and Varennes there were 500 workers, and there are that number there now.

OVERRULES PROTEST.

Tulare Red Cross to Devote Funds to Civilian Relief.

(LOCAL CORRESPONDENCE.) TULARE, Aug. 17.—Plans as originally announced, for devoting the surplus funds of the Tulare Chapter of the American Red Cross to civilian relief work and the organization of a bureau in charge of paid employees, will be carried out despite a very heated protest lodged with the district officers of the Red Cross in San Francisco. George Filmer, the Pacific Coast director, has advised the local protestants that the Tulare executive council is empowered to dispose of these funds as they see fit, and no action to restrain them from carrying out their plans will be taken by district officials.

Business men and others who signed the protest declared the implication that there are enough needy families in Tulare to justify organization of such a bureau is unfounded.

TO HEAR SOUSA.

(LOCAL CORRESPONDENCE.) CLAREMONT, Aug. 17.—Sousa's Band will appear in Claremont on Wednesday, November 26, on the Pomona College music and lecture tours, according to announcement made by the committee in charge of that course.

This famous band is making a Coast tour during the coming season, playing in several Southern California towns, and then traveling through the San Joaquin Valley to San Francisco. The band concert is one of the most excellent numbers planned for the college entertainment for the coming year, full announcement of which will be made later.

EXPERT IN CHARGE.

(LOCAL CORRESPONDENCE.) RIVERSIDE, Aug. 17.—E. C. Voorhees, secretary to Dean Hunt of the College of Agriculture of the University of California, will have charge of the farm bureau headquarters at the Southern California Fair to be held here in October. The announcement will be of great interest to farm bureau exhibitors from all parts of the State, because of Mr. Voorhees' reputation as an expert on goats and on stock feeds.

Our Policy is—

To give you values that merit the price.

To serve you each day as best we know how.

To see that everything is just as you want it.

To cheerfully refund your money if you are not entirely satisfied.

MANY WANT POSITIONS.

(LOCAL CORRESPONDENCE.) MONROVIA, Aug. 17.—More than 600 applications for the six teaching positions open in the Monrovia school system established a new mark here this week, according to Supt. A. R. Clifton, who has just completed filling the faculty lists of the High School and four grades.

ACCIDENTAL AMPUTATION.

(LOCAL CORRESPONDENCE.) PORTERVILLE, Aug. 17.—A. McGarvin, an employee of the Southern Pacific here, was seriously injured while at work in the local yards unloading material, when a steel rail fell on his foot, badly crushing it and completely amputating three toes. Mr. McGarvin was removed to his home on South H street.

Carnation as
Cream for Coffee

Carnation Milk, evaporated to the consistency of cream, is rich and delicious in flavor, and improves any cup of coffee. It is less expensive than cream, absolutely pure and safe, is always ready for use. Carnation should be used undiluted, just as it comes from the container, in coffee and tea.

Carnation is also convenient to use with instantaneous coffee and cocoa. It blends perfectly, and adds flavor and richness. Carnation, thoroughly chilled, may be whipped and used with coffee, cocoa and chocolate.

REMSEN CHARTS for PROVING WILLS BEFORE DEATH

IRA REMSEN, leading legal authority in the United States on the making of Wills, has prepared a series of charts, showing how to test a Will for legality, while the testator is yet alive, and can remedy any defects in its construction. These charts have been officially adopted and recommended by the Trust Company Section of the American Bankers Association.

For the convenience and instruction of our patrons we have placed these charts in an accessible place in our main banking room, or they will be explained in detail by an officer of the Trust Department. Attorneys of the city may have free access to them, and will find them invaluable for testing Wills for their clients, while anyone who has property to devise will find them interesting and instructive.

Poorly made Wills are one of the most common sources of litigation and often the entire estate is dissipated in such contests. On the contrary, a Will well made and carefully tested before death provokes but little litigation and is very seldom broken.

Do not delay, or hesitate to freely discuss this subject with the Officers of our Trust Department. You incur no obligation and may receive decided help.

CONGRESS IS TO STUDY BUDGETS.

Exhaustive Consideration in Present Session.

Action Impossible Until Late Spring or Summer.

Many Differences of Opinion on Vital Subject.

(EXCLUSIVE DISPATCH.)
WASHINGTON (D. C.) Aug. 17.—Budget legislation will be given exhaustive consideration during the present session of Congress. No actual enactment of a law is possible before spring or summer, but by that time definite recommendations will be before both Houses.

Independent committees to study the subject have been appointed by both Houses and it is expected that hearings will be begun in the near future. The two committees are in no way connected with each other but it is anticipated they will cooperate.

Illinois has a member on each committee, Senator McCormick being chairman of the Senate Committee, while Representative Madden is a member of the House Committee.

Sentiment for some sort of budget report appears universal, but the high comes over whether all appropriations shall originate in a single committee of Congress, instead of a score or more; whether Congress shall pledge itself not to increase the President's estimates or insert new estimates; whether the budget staff shall be in the Treasury Department or in the Executive office; whether estimating shall start with revenues in sight or needs to be met; and whether Congress shall promise not to disregard the recommendations of a central budget committee.

REPUBLICANS DISAGREE.

The clash between two groups of Republicans is shown in a statement by Representative Fear of Wisconsin objecting to the bill introduced some time ago by Representative Good, but approving Senator McCormick's bill.

"The Good bill simply directs the President to prepare better Departmental estimates than those now sent to Congress," Mr. Fear says.

"These estimates are then to be reviewed by an official acting as an agent of Congress who is to be appointed by the President to check Presidential estimates. More than 20 irresponsible congressional committees will then make appropriations without limit."

Fear that the conflict of opinion on various points may result in no action at all is expressed by the Institute for Public Service, which has been active in the movement. This work is in charge of Wm. H. Allen, director, and Julius H. Brown, new wheat director. The organization urges that some action be taken by this Congress even if the legislation is not as far reaching as might be desired.

CHINESE KILLED IN FALL OF AIRPLANE.

EXPERIMENTING WITH CONTROLS GIVEN AS REASON BY COMPANION FLYER.

(BY A. F. ROBERT WIRE.)

SAN FRANCISCO, Aug. 17.—Chin Hoy, a Chinese student, was killed instantly and Chin Chan, a licensed Chinese aviator, who recently arrived here from the East, was injured seriously late today at Redwood City, when an airplane in which they were flying crashed into the earth from an approximate height of 2000 feet.

According to Chan, he had taken Hoy on an instruction flight, and Hoy apparently attempted to experiment with the controls in the front seat. Chang said he was unable to gain the mastery of the plane with his controls owing to Hoy's manipulations of the controls in the front seat and the plane plunged downward.

Within a few feet of the ground Chang was partly successful in putting the plane into a glide but could not avoid striking with force enough to demolish the plane.

MAJORITY VOTE FOR SUFFRAGE IS CLAIM.

STATES THAT HAVE RATIFIED REPRESENT LARGEST PART OF POPULATION.

(EXCLUSIVE DISPATCH.)

WASHINGTON, Aug. 17.—The suffrage amendment has been ratified by a majority of the population of the United States.

If the will of the majority is to be carried out and women given the vote in the 1920 Presidential election, seventeen additional special sessions of Legislatures will be necessary.

A ratification poll of the country as announced today by the National Woman's party shows the following facts:

Fourteen States, containing a majority of the people of this country, have already endorsed the Federal amendment. Eleven of the Legislatures were controlled by a Republican majority, three by a Democratic. Four Democratic governors and five Republican have called special sessions for ratification.

Two special sessions are now scheduled at which ratification is assured. Gov. Burges of Minnesota has called a special session for September 2; Governor Bartlett of New Hampshire for September 2. These two sessions will bring the ratification States to sixteen.

In twenty-two additional States polls of the Legislatures have been taken which show favorable action can be counted upon. Only three of these twenty-two will meet in regular session before 1921. Unless two of the Southern States now in session (Alabama and Virginia) ratify, seventeen special sessions will therefore be required to give women the vote in 1920.

NEW CRISIS IN TURKEY LOOMS.

Opposition is United Against Two Weeks' Old Cabinet.

Intellectuals Declare War to Knife on Damad Ferid.

No Let-up in Censorship and Populace Knows Little.

(BY LADISLAV CZAPSKY.)

(BY CABLE-EXCLUSIVE DISPATCH.)

CONSTANTINOPLE, Aug. 17.—(Delayed.) Hardly two weeks have elapsed since the present Cabinet ministers took office, but already most of the opposition forces have come into line, and the town is full of talk about a new crisis.

What the opponents of the present Cabinet want above all is a National Assembly and government assembled and strong enough to rescue the country from impending ruin.

The hostility toward the Grand Vizier, Damad Ferid, is improving Turkey's chances at the Peace Conference, they say, as he came within an ace of destroying them altogether. With all their loyalty to the Sultan, they profess themselves unable to understand his continued confidence in a statesman who has been trying down whatever the country's enemies care to impose upon him.

WAR TO THE KNIFE.

At a recent secret meeting of politicians and newspaper editors a perfect agreement was reached. War to the knife has been declared upon Damad Ferid Pasha. Damad today attempted to conciliate his foes by calling in a delegation of journalists. He held out promises of co-operation, asking for confidence and patience in exchange. Nothing came of the encounter, however. The two sides parted more bitterly hostile to each other than before.

Men hitherto obscure in Turkish politics, but known among wide circles of intellectuals, are coming to the fore in this fight for a representative government.

Among them is Ahmed Emin, editor of the daily paper *Vakit* (Times), which has become salt in the eyes of Damad and his colleagues. He is a graduate of Columbia University. Besides his work as a political reformer, he has become prominent in a movement to induce America to come here as mandatory.

POPULACE KNOWS LITTLE.

Only two weeks back, Ahmed Emin returned to Istanbul from Asia Minor, where he had spent three months' exile for coming out too openly in favor of the American mandate. His article displeased not only the government, but also representatives of some Allied powers running the show here. Now that a new Minister of Interior has come into office, Emin is allowed to resume work, although restrictions put upon public discussions of the mandate problem remain in force.

There has been no let-up in the censorship. Banned from discussion are domestic as well as foreign

affairs of vital import to Turkey. As a result next to nothing has been known by the populace here of the revolutionary movement in Anatolia, where Mustapha Kemal Pasha and his committee were busy recruiting volunteers in the hope of preserving Turkey's territorial integrity.

REVOLTS SPREAD FAST.

I have it from a good source that British authorities here have asked the Turkish government to crush the agitation in Asia Minor without further delay. All the government has done in this respect so far was to send to the revolted provinces a commission of pacifiers. There is talk of dispatching another. Meanwhile the revolts are spreading fast. Mustapha Kemal's secret emissaries come and go between his haunts in the interior and Constantinople. Damad Ferid's opponents assert his Cabinet has lost all control of the situation.

To discredit the Anatolian movement in the eyes of Istanbul, the government has branded it as unionist, but sympathizers here have sharply denied the allegation. Its purpose, they say, is to force the present Cabinet out of power and to replace it with a strong national ministry. Mustapha Kemal and his principal fellow revolutionaries, Rasid Pasha have repeatedly assured the Sultan of their loyalty to his person, but wish him to establish a Cabinet capable of saving the empire from wholesale partition.

FAT WOMAN CAN GET PAY FOR BEING SAVED.

CHANCE FOR DAILY RESCUE BY GALAXY FIREMEN IS OFFER TO PLUMP FAIR ONE.

(EXCLUSIVE DISPATCH.)

CHICAGO, Aug. 17.—Woman—weighing 200 pounds, to be rescued daily by members of the Oak Park fire department. No thin ones need apply. See Chief Wolf any time.

Puff! Puff! "That's the last time I'm going to carry you up this blooming ladder, captain. I'm tired of rescuing men, anyway."

So spoke Chief Walter J. Wolf of the Oak Park fire department, yesterday as he deposited Capt. William Waters of Engine Company No. 1 on the floor of the second story of the engine house. He had just carried the captain, who weighs 140 pounds any day up a ladder as a part of the daily drill of the department.

Capt. Waters said he agreed "absolutely."

"I'm dinged tired of being carried up that ladder like a sack of oats and dumped on the hard floor," he said. "I can't get up as fast as I used to."

An idea came to the chief. "Say, let's get a lady who won't object to acting as a victim of the flames," he suggested. "We've carried every man on the force up that ladder for a long time."

The qualifications given out by the chief are as follows: Weight, 200 pounds; disposition, not fussy; able to dispense with ceremony and to act like a terrorized victim of a fire.

For Tired People.

WAGES—AND WAGES

HELP WANTED
ACTIVE MEN UNDER 45 TO QUALIFY for postoffice clerks and letter carriers. Salary to start, \$1000. See newspaper ads.

COLLEGE PROFESSOR—MUST HAVE studied not less than 17 years in best schools and universities. Salary \$900. Address any university.

MOTORMEN AND CONDUCTORS— Ages 21 to 70. Two weeks' training required. No other experience needed. Wages (if the Amalgamated Association has its way) \$8.25 a day, or about three times as much as is offered for a college professor. Inquire later.

Platform wages paid by this company amounted in 1916 to \$1,680,715, and in 1917 to \$1,855,947. The revenue in those years was greatly reduced through the operation of jitneys. In 1918, when jitney competition was not worth considering, our platform men were paid \$2,356,782.

At the rate demanded by the Union Committee, the total wages, based upon the present platform time or working hours daily, would be \$4,433,500 per year—an increase of 88 per cent. over the total wage payment last year. Approximately three-fourths of this increase would be due to the raising of the wage rate from the present average of 44 or 45 cents an hour to the proposed flat rates of 75 cents and \$1.12½ an hour.

TO THE PUBLIC!

THE very conditions that exist in Los Angeles during this hour of trial are graphically set forth in Allen Holubar's photodramatic thunderbolt "The Right to Happiness" at the California Theater which has proven one of the most talked about film plays ever shown in the city.

So unprecedented has been the interest created by this great eight reel masterpiece that it has been found necessary to hold it over for one more week, beginning today, at eleven o'clock.

It entertainingly drives home its powerful lesson and is undoubtedly a tremendous contribution to the public safety in the uncertain hours of today.

Because it has been found necessary to continue this production for another week, Nazimova's sensational success, "The Brat," will be shown for a week beginning next Monday.

(Signed) California Theater

card of 37-35-73 and tied with Davidson Herrin and Grant A. A number of the players had strange experiences during the hailstorm on Saturday afternoon. During the heaviest part of the storm it was impossible to play. Harry Sagg of Minneapolis left his ball on the fairway and sought shelter. The wind and hail carried his ball fifty yards near the hole. Davidson Herron of Pittsburgh left his ball on the green and took refuge in a bunker. The ball was blown and was led into the bunker. Caddie boys held the bags over their heads to prevent being beamed by the hailstones. Other players had similar experiences and the general opinion is that while it lasted it was one of the worst storms that ever hit a golf course.

WHITCOMB TOPS LIST OF TRAP SHOOTERS.

R. H. Bunday, W. H. Whitcomb and J. W. Nolan were the stars at the Los Angeles Gun Club shoot yesterday. Whitcomb won first prize with a score of 48 at sixteen yards. Bunday and Nolan tied for second honors with 47 apiece. A big crowd turned out for the regular Sunday shoot and some exceptionally good records were made.

The scores:

Name	Score
Whitcomb	48
Bunday	47
Nolan	47
W. H. Whitcomb	46
R. H. Bunday	45
J. W. Nolan	44

L. B. FRIEDER CANOE CHAMP OF NATION.

[BY A. P. NIGHT WIRE.]
THOUSAND ISLANDS (N. Y.) Aug. 17.—L. B. Frieder, international canoe champion, won the national championship trophy today by out-sailing his competitors on every leg of the six-mile triangular course. His time was one hour and seventeen minutes.

Ralph Britton, Canadian champion, was second.

On the coming Saturday and Sunday there will be an eighteen-hole contest, handicap against par golf for the trophy upon which the names of several players show two wins. It may be also taken out of play by a third win by one of these golfers.

ARMY OFFICERS GET UNSKILLED LABOR PAY.
[EXCLUSIVE DISPATCH.]
WASHINGTON, Aug. 17.—Faced with the increased cost of living and the low rate of pay which is now reverting to the scale of 1918, more than 1200 officers of the regular army have resigned their commissions since the armistice was signed. Of these 180 resigned in July and scores of other officers whose resignations have not been filed are making their arrangements with a view to leaving the service.

The serious effect on the army of wholesale resignations, principally of junior officers who are the backbone of the service, led to an investigation, the results of which have just been reported to Gen. March by Gen. William G. Haan, chief of the Plans Division of the General Staff.

According to Gen. Haan's report younger officers are receiving less pay than unskilled day laborers, and in justice to their families are accepting positions in civil life to enable them to win out against the high cost of living. Older officers are stating frankly that they would also resign if they could find opportunity outside.

"It is interesting to note," the report states, "that the War Department, through the construction division, is now paying a hod carrier, per eight-hour day, \$5.35, about as much as it pays a second lieutenant (\$5.72) for all his time including both pay and allowances of the latter. Also that it pays a plasterer more per eight-hour day (\$7.35) than it is paying (\$6.97) a first lieutenant—perhaps a medical officer of seven years' university and hospital training—including both pay and allowances for a twenty-four hour day."

MITCHELL CUP WON AT LAST.

Trophy Permanent Possession of L. C. Potts.

Many Have Legs on Much-Contested-for Prize.

Golf Play on Municipal Links is Great Success.

L. C. Potts swooped down on the Mitchell golf trophy at Griffith Park yesterday and won it for the third and final time. It is now his to have and to hold forever.

For three years golf enthusiasts have been speeding around the Griffith course trying to line up three legs on this trophy. Several of them have managed to get two victories across, but it remained for Mr. Potts to put the cup out of the running. His score was 75-14-42.

Frank V. Deletio turned in the best gross, a slick par 71. Only five gross scores under 80 drifted into the clubhouse. Deletio, T. H. R. Root, W. D. Whelan, Jr., T. B. Sittell's 78, and L. C. Potts 79.

This first round of match play was finished yesterday in the Tulsa trophy tournament. Three matches went nineteen holes, one twenty, and one twenty-three for decisions. Following are the results on the Mitchell trophy play:

1. L. C. Potts defeated R. Root (8) 4 and 3.
2. J. V. Deletio defeated T. H. R. Root (8) 4 and 3.
3. J. V. Deletio defeated T. H. R. Root (8) 4 and 3.
4. J. V. Deletio defeated T. H. R. Root (8) 4 and 3.
5. J. V. Deletio defeated T. H. R. Root (8) 4 and 3.
6. J. V. Deletio defeated T. H. R. Root (8) 4 and 3.
7. J. V. Deletio defeated T. H. R. Root (8) 4 and 3.
8. J. V. Deletio defeated T. H. R. Root (8) 4 and 3.
9. J. V. Deletio defeated T. H. R. Root (8) 4 and 3.
10. J. V. Deletio defeated T. H. R. Root (8) 4 and 3.

SECOND FLIGHT.
1. J. V. Deletio defeated T. H. R. Root (8) 4 and 3.
2. J. V. Deletio defeated T. H. R. Root (8) 4 and 3.
3. J. V. Deletio defeated T. H. R. Root (8) 4 and 3.
4. J. V. Deletio defeated T. H. R. Root (8) 4 and 3.
5. J. V. Deletio defeated T. H. R. Root (8) 4 and 3.
6. J. V. Deletio defeated T. H. R. Root (8) 4 and 3.
7. J. V. Deletio defeated T. H. R. Root (8) 4 and 3.
8. J. V. Deletio defeated T. H. R. Root (8) 4 and 3.
9. J. V. Deletio defeated T. H. R. Root (8) 4 and 3.
10. J. V. Deletio defeated T. H. R. Root (8) 4 and 3.

THIRD FLIGHT.
1. J. V. Deletio defeated T. H. R. Root (8) 4 and 3.
2. J. V. Deletio defeated T. H. R. Root (8) 4 and 3.
3. J. V. Deletio defeated T. H. R. Root (8) 4 and 3.
4. J. V. Deletio defeated T. H. R. Root (8) 4 and 3.
5. J. V. Deletio defeated T. H. R. Root (8) 4 and 3.
6. J. V. Deletio defeated T. H. R. Root (8) 4 and 3.
7. J. V. Deletio defeated T. H. R. Root (8) 4 and 3.
8. J. V. Deletio defeated T. H. R. Root (8) 4 and 3.
9. J. V. Deletio defeated T. H. R. Root (8) 4 and 3.
10. J. V. Deletio defeated T. H. R. Root (8) 4 and 3.

FOURTH FLIGHT.
1. J. V. Deletio defeated T. H. R. Root (8) 4 and 3.
2. J. V. Deletio defeated T. H. R. Root (8) 4 and 3.
3. J. V. Deletio defeated T. H. R. Root (8) 4 and 3.
4. J. V. Deletio defeated T. H. R. Root (8) 4 and 3.
5. J. V. Deletio defeated T. H. R. Root (8) 4 and 3.
6. J. V. Deletio defeated T. H. R. Root (8) 4 and 3.
7. J. V. Deletio defeated T. H. R. Root (8) 4 and 3.
8. J. V. Deletio defeated T. H. R. Root (8) 4 and 3.
9. J. V. Deletio defeated T. H. R. Root (8) 4 and 3.
10. J. V. Deletio defeated T. H. R. Root (8) 4 and 3.

DEAR TROPHY.
On the coming Saturday and Sunday there will be an eighteen-hole contest, handicap against par golf for the trophy upon which the names of several players show two wins. It may be also taken out of play by a third win by one of these golfers.

ARMY OFFICERS GET UNSKILLED LABOR PAY.
[EXCLUSIVE DISPATCH.]
WASHINGTON, Aug. 17.—Faced with the increased cost of living and the low rate of pay which is now reverting to the scale of 1918, more than 1200 officers of the regular army have resigned their commissions since the armistice was signed. Of these 180 resigned in July and scores of other officers whose resignations have not been filed are making their arrangements with a view to leaving the service.

The serious effect on the army of wholesale resignations, principally of junior officers who are the backbone of the service, led to an investigation, the results of which have just been reported to Gen. March by Gen. William G. Haan, chief of the Plans Division of the General Staff.

According to Gen. Haan's report younger officers are receiving less pay than unskilled day laborers, and in justice to their families are accepting positions in civil life to enable them to win out against the high cost of living. Older officers are stating frankly that they would also resign if they could find opportunity outside.

LOOKS EASY FOR WESTERN CLUBS.

Both New York Ball Teams Virtually Eliminated.

Reds Continue to Pile up Healthy Lead.

Ruth Breaks Home-Run Record in American.

[BY A. P. NIGHT WIRE.]
NEW YORK, Aug. 17.—Virtual elimination of both New York teams last week in the National and American League pennant races leaves the field clear for western clubs to compete for the honor of meeting in the world series. After losing four of its six games with Cincinnati, the New York Nationals, to overcome the Reds' lead of six games, would now have to win twenty-six of their remaining forty games of this season while the Reds need to win only seventeen of their thirty-four. A respective ratio of .650 and .500.

In the American League, Chicago maintained a winning edge, although its pitchers did not appear to be going strongly. Clete, who won a twelve-inning pitchers' duel from Shaw of Washington last Sunday, was batted hard Thursday, along with Kerr, by Boston. Clete's home-run record Thursday by making his seventeenth circuit clout and added another to his total Saturday.

FOR OIL DRILLING.

Texas Company Leases Large Acreage Near Porterville.

[OFFICIAL CORRESPONDENCE.]
PORTERVILLE, Aug. 17.—C. O. Gill, one of the largest individual owners of property in Tulare county, has executed a lease to the Texas Oil and Gas Company, a California corporation, on 10,000 acres of his foothill cattle ranges for a period of five years for oil and gas exploration purposes.

The land in question lies a short distance north and east of Porterville on both sides of Lewis Creek, through Epperson Flats to the Blue Ridge range of the foothills. There is no provision in the lease to compel immediate drilling operations and representatives of the company who made the deal for the property did not indicate that they intended to start any actual work soon. Experienced oil men who have been over the ground say the geological formation of the country leased is not such as to give much encouragement that oil in paying quantities will be found.

HENTSCHE TO COACH AT RIVERSIDE POLY.
[EXCLUSIVE DISPATCH.]
REDLANDS, Aug. 17.—The many friends of Armin Hentschke, eight years a football and baseball star in this city, four in the High School and four in the University of Redlands, were delighted to hear that he has been secured as athletic coach for Riverside Poly the coming year.

Hentschke has just returned from service overseas and from four months' study in a university in London. He is one of the best football linemen ever produced in the south, and was a crack catcher in baseball. He was a fair track man. He took a post-graduate course in the University of Southern California, and there had a course in coaching under Andy Smith. Later he coached for one year in Hollister High before he went to France.

MRS. DESCH BREAST STROKE CHAMPION.
[BY A. P. NIGHT WIRE.]
ALAMEDA, Aug. 17.—Mrs. Terie Desch of Alameda, won the Pacific Association senior 100-yard breast stroke swimming championship for women in the tank of a local amusement park today when she covered the distance in 1 m., 18 s.

FOUR IN ONE FAMILY HURT.
Two Striking Street-Car Men are in List of Collision Victims.

Four persons, all members of one family, and two street railway employees out on strike, were injured yesterday when the automobile in which they were riding collided with a heavier machine at Western avenue and Wilshire boulevard.

The injured are Harry H. Bell, 45 years of age, and Harold G. 18, Percy, 16, and John Bell, 8 years old, all of 2449 Glen Allyn drive. The first is a railway motorman; the second is a conductor. They were taken to the Crocker Street Hospital, where emergency treatment was given by the physicians in charge. Harold G. Bell received a probable fracture of the elbow. Percy had a double fracture of the left arm, the youngest boy was uninjured and the father received possible internal injuries.

ENGINEERS ASK WAGE INCREASE.

(Continued from First Page.)

stitute a day's work. All time work at rate of eight hours to be paid at rate of time and one-half.

A demand is made that all coal-burning locomotives less than 200,000 pounds in weight shall be equipped with mechanical coal passers, a mechanical device operated by steam to keep the coal within the reach of the firemen and that all coal-burning locomotives shall be equipped with power grate shakers and automatic fire brick operators.

It is estimated that it will cost \$200,000,000 to equip the locomotives in the United States with the different mechanical devices demanded by the firemen.

Uniform dead-end rules for pay for firemen when traveling from one terminal to work at another and to be applied to all railroads in this country and Canada are demanded.

ANGELENO CHARGED AS SLAYER SEEKS LIBERTY.

WHIT OF HARBOR CORPUS IS ASKED FOR BY COUNSEL IN FETTER CASE.

[EXCLUSIVE DISPATCH.]
ITHACA (N. Y.) Aug. 17.—Superior court Justice Michael L. Kiley, at Casnovia, granted today a writ of habeas corpus commanding Sheriff Charles Green, of Tompkins county, to produce Donald W. Father, Cornell student, held here for the grand jury charged with the murder of Hazel Crane, before him at Casnovia next Tuesday afternoon.

Justice Kiley will then hear arguments of Father's attorneys that he is being illegally confined in jail and that he should be released from custody on the ground that no evidence has been produced to show that he is guilty of a crime.

Within three hours after Father had been brought back from his hearing at Jacksonville, where Justice Henry Williams had held him for the grand jury without bail, his attorney, A. W. Feinberg and associate, Riley Hawk, started in an automobile for Casnovia, about sixty-five miles away. A rainstorm retarded their progress and they arrived too late with their application to see Justice Kiley last night.

No argument was required of the defendant's attorneys, but that a bitter legal battle will develop next Tuesday when the writ is returnable is certain.

Many Men Return to Work; Backbone of Local Street Car Strike is Believed Broken.

Rail Service is Nearing Normal, Officials Say.
Whether or no trouble is experienced; women seek jobs as strike-breakers; many new men hired.

Normal service on the Pacific Electric Railway and 19 per cent of the street car service is believed to be nearing normal, officials of the strike said today. The strike has been in progress for nearly two weeks, but the backbone of the strike is believed to be broken. Many new men have been hired, and women are seeking jobs as strike-breakers. The strike is believed to be nearing its end.

Broadway at Sixth

FIFTY WOULD RUN "JITNEYS."
Car strike causes many to seek city licenses. However, they're good only for interurban service.

Police hear of "Gauging" by "Helpful" Autoists.
There was a lively scramble for jitney bus licenses yesterday, as a consequence of reports concerning the car strike. The police reported that many autoists were "gauging" the city to get licenses for interurban service.

ROUGH JEER LOYAL STREET-CAR WORKERS.
Police have busy, but an uneventful day; no arrests reported.

With Chief of Police Home and Capt. Murray of the Central Division on the job, the police put in a busy, though uneventful day, as far as their activities in the street car strike were concerned. The police reported that they had received many reports of "gauging" by autoists.

CLASH AT STATION.
Deputy Hits Former Motorist Who Makes Alleged Staring Remark.

The first physical clash of the strike occurred last night when Thomas Powell, formerly a motorist on the Pacific Electric, hit a deputy police officer at the Hill-street station. The deputy reported that Powell had made a staring remark at him.

MERCHANT PASSES.
HARRY FINK SUFFERS AFTER SHORT ILLNESS, DUE TO OVERWORK.

Harry Fink, president of Harry Fink & Co., died at his home, 2044 West Seventh street, early yesterday morning after an illness of two weeks. Mr. Fink, who was 35 years old, has been overworked for some time, and though urged by his friends to go away for a rest, he refused to do so.

Proposed Big Inter-City Improvements at a Glance.

TO CEMENT TIES ANEW.
Important Projects Planned by Sister Southland Municipalities.

Los Angeles and Pasadena's long-established league of community interests is to be cemented anew by construction work now proposed, it became known yesterday, that will shorten the distance between the two cities and also open up between-city territory of many scenic attractions.

Perhaps the most important project being a joint city affair, is the proposed paving of San Pasqual avenue, the roadway leading from Pasadena, avenue to the Arroyo Seco, and the laying of a cement road for a stretch of 150 feet across the Arroyo bed. The problem of paving San Pasqual avenue to the Arroyo Seco, was discussed at an early date, the Budget Committee of the Los Angeles City Council already having under consideration a communication from the Board of Public Works concerning the pavement to be constructed across the Arroyo bed.

LAWLERS' RECOVERY NOW SEEMS CERTAIN.
Mr. and Mrs. Oscar Lawler are steadily improving at the Sisters' Hospital, the family physician, Dr. Thomas C. Myers, stated last evening, and their recovery is now believed certain.

VICTIM OF SPEEDER.
Unidentified Man Near Death at Receiving Hospital.

Knocked down by a speeding auto at North Broadway and Ord streets an unidentified man is at the point of death at the Receiving Hospital. The physicians say his skull is probably fractured and he has internal injuries. The driver of the auto sped away without waiting to aid the victim. The only witness to the accident was Officer F. R. Berkshire, who was a block away at the time.

GAS COMPANIES PLAN MERGER.
Midway Would Acquire Stock of Valley Concern.

Efficiency in operation is the object, 'tis said.
Means More of Natural Goods for Us, it is Declared.

Permission for the consolidation of the two biggest natural gas companies in California, the Valley Natural Gas Company and the Midway Gas Company, under the name of the Midway Gas Company, is asked in a petition filed jointly by the two companies with the State Railroad Commission Saturday. Involvement in the consolidation is the purchase by the Midway Gas Company of 4000 shares of the capital stock of the Valley Natural Gas Company, upon which the Midway company seeks to exercise its option to purchase for \$800,000. The stock is to be acquired as follows: One thousand shares in October, 1919; 300 shares in January, 1920, and 1999 shares in January, 1921.

THOUGHTS ON BONES.

BY HARVEY JOHNSON.

As well as just plain
have been interest-
of prehistoric an-
at Eden Hot
is situated about
of Banning.
were carried on
A. C. Pick, the Pitts-
and the bag
was much

There wasn't anything small
about Riverside county in these
days, except the tax rate. Every-
thing was on a big basis. Gigantic
mammoth bones, bears, saber-
toothed tigers, three-toed horses,
graffa-camels, ground sloths and
elephants roamed these wilds. These
were "new" years, too, for these
animals had an appetite to conquer
a jungle, and a jungle it was. Vege-
tation was as dense in Riverside
county then as it is along Rose-
velt's lost river in South America
today. There must have been as
many "new" years, too, for these
animals had an appetite to conquer
a jungle, and a jungle it was. Vege-
tation was as dense in Riverside
county then as it is along Rose-
velt's lost river in South America
today.

Some people claim the Indians
were the first settlers in Southern
California and that they came from
the South Sea Islands at a com-
paratively late date. Should this be
true, of course, Eden Springs was
unknown to mankind at any very
early period. However, it seems
that in all history mankind and the
lower animals have lived together.

The Garden of Eden of the Good
Book mixes mankind and the lower
animals at the very beginning. The
animals were beasts of burden, or
food for man. Perhaps the same
condition existed at Eden Springs.

There must have been some great
courtships back in those primal
days. The young fellow in those
days didn't whirl down to a garage
in his six-cylinder car, charge up
ten gallons of gas, and burn up the
paved road in his mad chase to get
to the home of his sweetheart to
take her for a joy-ride. Nothing
doing of that sort in the old days.

These young fellows of a million
years ago had to go out to the barn
and saddle up one of these pesky
combination graffa-camels and gal-
lop along over the old jackrabbit
trail to the home of their intended.

And on the road they had to fight
saber-toothed tigers and other
things too numerous to mention.
If the old graffa-camel wasn't
handy they had to harness up a

ONLY COOL SPOT
IN THE VALLEY.

(LOCAL CORRESPONDENCE.)
HOLTVILLE, Aug. 17.—The
luckiest and most envied men
in town are the two meat cut-
ters at the Holtville Market.

They have ingeniously devised
sleeping quarters in a "cool
spot" that is really cool. They
have moved their beds into
the market's large ice box,
where the ammonia tank pre-
vents the midsummer night's
heat from interfering with their
midsummer night's
dreaming. Oh, boy!

Team of those three-toed horses and
hitch them to a sleigh made of
mammoth timbers, and take the
young lady riding on that contri-
vance, which would be spurned by
every Banning girl today.

It must have been lovely, strolling
along that old sea on an evening
in June, with the sweet young
thing on his arm, just waiting for
him to pop the question. She, of
course, was wearing her latest fash-
ion, direct from the town fashion
show, and he wore all the town
required. They could stroll along
the shores of this beautiful sea, that
existed near Moreno, and vow to
be faithful till the sands of the des-
ert grew cold, or until somebody
else, more attractive, came along.

There were none of the twentieth-
century frills and follies in those
days. These young folks didn't re-
pair to a resort cafe and pay \$4 for
a four-bit dinner. Not they. Choco-
late creams and ice cream were un-
known and on special occasions they
could sit down in their cave home
to a steaming hot dinner of roast
beef, stuffed mutton, fried
elephant steak, mesquite chow-
chow, slough-grass pudding and
near-water.

Such was evidently the life fol-
lowed by the first settlers of what
is now Riverside county. There
wasn't any taxes to fuss about, no
bills to pay on the first of the month,
and no League of Nations to get
excited over. Life was just one
grand, sweet song, with plenty of
fresh meat in the refrigerator and
big-leaved stores on both sides of
Broadway.

Don't you wish you could have
been there to enjoy it all?

RARE MINERALS
METALLURGY
CHEMISTRY.

You are politely requested to submit samples,
carefully wrapped and labeled, with letter ac-
companying, stating that this is for analysis. No
charge for small lots. There is no assembly for the
analysis. Correspondence giving matter for anal-
ysis with acid, or scrap of paper, intended to show
that the stuff is from the mines, for instance, will
be made of identification on samples, will, how-
ever, secure no attention whatsoever.

Platinum Absent.
VICKSBURG (Ark.) Aug. 1.—Q: I
enclosed you will find a sample. We
have made a test run of this ore
in the forge and got a good-size
button. We put that button in acid
and it will not eat it. Will you kin-
dly let me know what kind of metal
this is? "SUBSCRIBER."

A: The question is: "Who's got
the button?" The sample consists
of broken chips and granular mat-
ter containing titaniferous iron of
no commercial value, and there are
many minerals in your locality car-
rying limonite (titanite of iron).
limonite is often confused with rut-
ile, in certain analyses, but it is
well to bear in mind that rutile is
the binoxide of titanium, and when
pure carries 93.5 per cent. titanic
acid with 1.5 per cent. iron per-
oxide, or in other calculations 69.98
per cent. titanium with 30.02 oxy-
gen. Rutile is of good commercial
value. Other titaniferous ore is
practically of no value.

You did not send a sample of the
"button," and we have no knowledge
whether or not you used a flux in
obtaining it.
Further analysis on the specimen
shows lime magnesia, and iron as
carbonates; soda present with lime
silicate, and microporous forms of
mica; lead and graphite traces only.

Cherty Silica.
LOS ANGELES, Aug. 1.—Q: I
enclosed the enclosed sample
J. C. N.

A: Aluminum, lime and magne-
sia more or less present.

Uranium Absent.
LAS VEGAS (Nev.) Aug. 1.—Q: I
am sending to you by mail two
samples of ore for analysis. Please
give me results of tests through the
usual column.

A: No. 1 is altered rock; pow-
der yellowish magnesian iron carbon-
ates. Silica and aluminum silicate
in the mass; zinc traces. No. 2 con-
tains traces of lead; zinc present,
and is, in part, altered cherty sil-
ica. Prospect a little more on this
in the hope of finding ore of nickel.

Hematite with Iron Silicate.
SIXES (Or.) Aug. 2.—Q: I en-
closed send a rock. Will you please
tell me what this contains? Is
there anything in it of much value?

A: The two grayish specimens are im-
pure lime-magnesia carbonates, and
both samples have a coating of
calcite (crystallized lime carbonate)
on one side. Sulfur traces. One
is impure yellow and red oxide
of iron, and of this sample you
refer to as "cinnabar." Cinnabar
and vanadium both absent. The
third blackish sample is iron-
manganese silicate.

Thirteen Samples.
VICTORVILLE, Aug. 4.—Q: I
enclosed you will find a sample. We
have made a test run of this ore
in the forge and got a good-size
button. We put that button in acid
and it will not eat it. Will you kin-
dly let me know what kind of metal
this is? "SUBSCRIBER."

The Entire Capital Stock of Bruckmann
Can Machinery Co. and Other Property.

Notice is hereby given that the undersigned, Francis P. Gar-
van, Alien Property Custodian, will offer for sale at public sale,
to the highest bidder, at the office of the company, 1130 Mer-
chants' Exchange, San Francisco, California, at 3 p.m. on the
13th day of September, 1919, 350 shares of the capital stock, par
value \$100 each, being the entire issue and outstanding capital
stock of the Bruckmann Can Machinery Company, a corporation
organized and existing under and by virtue of the laws of the
State of California, and certain letters patent of the United States,
all as included in the order of sale.

Full description of and information concerning the property
to be sold, the terms and conditions of inspection and sale, and
the order thereof, may be obtained by application to Joseph F.
Guffey, Director, Bureau of Sales, 110 West Forty-second Street,
New York City, New York.

FRANCIS P. GARVAN,
Alien Property Custodian.

Empire Gas & Fuel Company

Notes may be immediately converted par for par into the
6% Cumulative Preferred stock of Empire Gas and Fuel
Company.

Earnings are many times annual interest requirements on
Notes; and six times dividend requirements on Preferred
stock.

Company is a complete unit in the oil industry, producing,
refining, transporting and marketing petroleum and petro-
leum products.

Empire Gas and Fuel Company ranks among the largest
corporations engaged in the oil and natural gas industries.

Estimated value of properties exceeds \$200,000,000.

Investment in physical construction alone more than \$70,
000,000.

Preferred stock must be retired at the rate of 1% of out-
standing amount annually unless 7 1/2% has been invested
in properties.

Efficient and experienced management with over 8000 em-
ployees.

Preferred stock pays monthly dividends at rate of 8%, and
Notes pay interest at annual rate of 6%.

PRICE—97 1/2%
Descriptive circular may be obtained from dealers.
